| Sample number: <b>17</b>            | Date: <b>12th July 2012</b>       |
| Supplier: <b>CNH016</b>             | Product: <b>Loudspeaker stand</b> |
| Catalogue reference: <b>NJS063C</b> | Pass/Fail: <b>Pass</b>            |

**Material:** Steel  
**Yoke material:** Plastic  
**Overall weight:** 3.45 kg  
**Maximum height:** 1.94 m  
**Max. load:** 40 kg  
**Pole dia.:** 35 mm  
**Leg dia.:** 35 mm

**Test carried out:** Static load test

The test was carried out on a level tarmac surface.

The stand was extended to its maximum height, the locking pin was fitted, and the screws tightened. A loudspeaker bracket 180 mm × 120 mm with a top-hat fitting was fitted to the top of the stand. It was loaded evenly with 60 kg of test weights (being 150% of the rated load) and left under load for 10 minutes.

No damage nor distortion to any components was observed.
