2kW PTC Over Door Heater/Fan with Remote Control and Timer

The Over Door PTC Heater/Fan with Remote Control and Timer is ideal for installation in shop doorways and business reception areas; in fact anywhere you want to limit heat loss or temperature fluctuations where an exterior door is frequently in use. With 2 heat settings (1 or 2 kW) and a fan only setting, the Over Door Heater and Fan also features a wide oscillating angle for generous heat distribution and a timer for total control. The Over Door Heater and Cooler from Premiair features a ceramic PTC element, which is an extremely efficient heating method, ideal for areas where temperatures may fluctuate. The ceramic PTC element is self-regulating and varies its wattage to maintain a preset temperature. This means that it only draws the required current to maintain the temperature.

Features:

- PTC Heating for high thermal efficiency
- Wide oscillating angle for greater coverage
- Heat or Fan only settings for year round use
- Remote control and timer for total convenience

PRODUCT SPECIFICATION

Product Dimensions (mm)	210x620x130
Net weight (kg)	3.63
Colour	White
Controls	Remote Control & LED Display
Fan only settings	yes
Frequency (Hz)	50
Heat settings	2
Input power	2kW
Installation	Over Door
LCD display	yes
Main body material	ABS
Noise level (dB(A))	50

Number in outer carton	4
Oscillation function	yes
Output	2kW
Overheat safety cut out	yes
Plug Amp (A)	13
Power heat (kW)	2
Power on indicator light	yes
Protection class I or II	II
Remote control	yes
Timer (hours)	7.5
Voltage (V)	230
Wall mountable	yes

Product Code: EH1464
Barcode: 5021196679752
