Prem-I-Air Disposable Moisture Absorbent Dehumidifier

The Prem-I-Air Disposable Moisture Absorbent Dehumidifiers are the ideal products to help reduce damp, mould & mildew which can appear due to moisture in the air. These products are designed to be a cost effective, noise free and safe way to remove and control damp. The disposable dehumidifier is available in various sizes, they are supplied in plastic containers and are suitable for use in both small places such as wardrobes and also larger areas such as caravans, garages, boats and sheds. The dehumidifiers have to be replaced when all of the contents have turned to liquid. Once all the crystals have dissolved the dehumidifier will no longer work, at this point the water can be safely disposed of by pouring the dissolved salts/liquid down the sink or toilet and flushing away, the plastic container can then be recycled with the general waste.

Features:

- Designed to stop the build up of damp, mould & mildew
- Available in Various sizes and can be used in a variety of places
- Absorbs up to 3 times its own weight in water
- Compact and Sealed Design
- Removes scents from around the home

PRODUCT SPECIFICATION

Product Dimensions (mm)	56x240x68
Net weight (kg)	0.29
Moisture Removal (litre/day).....	0.40

Product Code: EH1750
Barcode: 5021196761402
