Instruction Manual

IMPORTANT

Installer and Users please note:

These instructions should be read carefully and left with the user of the product for future reference.

BEFORE USE

You must inspect these products including their power supplies before use for any signs of damage. If the products or their power supplies are damaged in anyway, DO NOT use it, and contact your supplier immediately.

PRODUCT SAFETY

- These units can be used by children aged 8 years and above, and by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision and instruction concerning the use of the appliance in a safe way and understand the hazards involved.
- Children should be supervised to ensure that they do not play with the units.
- Only use on a flat stable surface.
- Do not look directly into the beams.
- Do not leave these products connected to the mains when unattended.
- Disconnect the units from the mains when not in use.
- Do not move the unit whilst operating.
- For indoor use only.
- Do not use in bathrooms, or in wet or damp locations.
- Arrange the cables so that they do not cause a trip hazard.
- Not suitable for people with photo sensitive epilepsy or similar conditions.

GENERAL SAFETY REQUIREMENTS

Domestic wiring must be tested periodically by a qualified electrician at least once every 10 years or at every change of occupancy.

For office and retail premises, and buildings such as village halls, the wiring must be inspected at least once every 5 years.

It is recommended that all building be fitted with smoke alarms (it is mandatory for new buildings).

OPERATION

Assemble the stand and attach the lighting effects to the T-bar using the nuts and bolts provided. Make sure the units are firmly attached to the bar and pointing in the general direction required. Final adjustment can be made by adjusting the hanging brackets.

Plug the mains power supplies in to a wall socket and attach to each of the lighting effects via the sockets on the rear of the units.

If an extension socket is to be used it must be fully unwound and placed so as not to cause a trip hazard.

Par Lights:

This has a 3 position switch

Position 1: Off

Position 2: Auto scrolling colour changing mode

Position 3: Sound to Light: The unit reacts to the ambient sound in the room.

Led Crystal Effect:

Rotary Switch Control

Fully anti-clockwise position: Turns the unit off

Turning the Switch Clockwise: Switches the unit on and acts as a speed control for the sound to light function.

OPERATION (CONTINUED)

Led Projection Light:

Switch on via an On/off button on the rear of the product. The unit operates using a sound to light function.

MAINTENANCE

Always disconnect the units from their power supply before cleaning

Clean the outside of the units with a soft damp cloth, with a drop of washing-up liquid. Dust can be removed by using a small paint brush or similar.

FAULT-FINDING

Unit Does Not Function:

- 1) Check the power supplies are plugged into a wall socket and the socket is switched on.
- 2) Make sure the leads are plugged into the sockets on the back of the units and that all switch's are in the correct setting.

PAT TESTING

When used in a workplace, this product must be safety-tested yearly by a qualified electrician (PAT Tested) in order to comply with the Electricity at Work Regulations.

If hired out, it must be PAT tested prior to each hire.

We recommend that it is PAT tested regularly when used in a domestic environment.

DISPOSAL AND RECYCLING

You must not dispose of this appliance with domestic household waste.

Most local authorities have specific collection system for appliances and disposal is free of charge to the end-user.

When replacing an existing appliance with a similar new appliance your retailer may take the old appliance for disposal.

PAT TESTING

When used in a workplace, this product must be safety-tested yearly by a qualified electrician (PAT Tested) in order to comply with the Electricity at Work Regulations.

TECHNICAL SPECIFICATION

Weight:	2 kg
Plug in Mains Power Supply:	4 @ 230V@50Hz
Product In-put Voltage	5V DC @ 6W
Stand Height Max.....	1440mm
Stand Height Min.....	900mm
Bar Length.....	600mm

SERVICE WARRANTY

Electrovision guarantees the product free from defects in materials and workmanship for a period of one year.

Should this unit be operated under conditions other than those recommended, at voltages other than the voltage indicated on the unit, or any attempts made to service or modify the unit, then the warranty will be rendered void.

The product you buy may sometimes differ slightly from illustrations. This warranty is in addition to, and does not affect, your statutory rights.

If you have any problems with this product, please call our Help Desk on (0845) 459 4816. The help desk is open from 8 am until 1 pm.
