

INTRODUCTION

Thank you for purchasing the Anti-fall Barrier PU Foam.

Please examine your product for any visible damage before using/installing. If you see any damage or suspect a fault, please do not use, but contact your supplier.

BEFORE USE

Remove from packaging, unroll and allow the foam to return to its full shape. This may take 2 hours.

Please note all new materials have their own particular smell, which will gradually disappear. Airing and vacuuming the mattress topper will help eliminate the smell.

ASSEMBLY AND OPERATING INSTRUCTIONS

Place the barrier as required on the edge of your mattress under deep fitted sheets. The anti skid silicone beaded material of the barrier ensures a firm stay in place.
