

E224CW

2m 2-Gang White Extension Lead with
Anti-Surge

Manual and Safety Instructions

Thank you for buying your Eagle mains extension lead. This manual forms part of the product and should be kept with it at all times. If the product is sold or moved on then the manual should also be included.

Safety Warnings

- Before use always inspect the product for wear or damage. If any is detected then do not use and consult your supplier
- Ensure the cable does not cause a trip or snagging hazard.
- Do not connect the extension lead on to another extension lead.
- Do not remove the mains plug and connect direct to the mains power supply.
- Do not exceed the maximum load of 13A.
- Take care not to damage the cable or fittings.
- Disconnect from the mains supply when not in use.
- Do not use in damp or wet conditions.
- For indoor use only.
- Not suitable for high power devices such as heaters, irons or other high wattage devices
- There are no user serviceable parts.
- **Surge protection:** If you are connecting sensitive electronic equipment (such as computers or televisions), consider using an extension lead with surge protection to guard against power surges.
- **The extension lead must be fully unwound before use.**
- **This is not toy. Children under 8 years of age should not use the product. Children over the age of 8 can use the product with adult supervision**
