

USER MANUAL - WEIGHING SCALES (T600A)

Thank You for Choosing Altai Weighing Scales

We appreciate your purchase. Please read this manual carefully to ensure safe and proper use of your new weighing scales.

Key Features

- **Maximum Capacity:** 160 kg (25 stone)
- **Product Weight:** 3.5 kg
- **Tolerance:** $\pm 1\%$
- **Grade:** 1
- Designed for **domestic use only**.

Important Notes

- **Non-Medical Device:** Measurements are for informational purposes only and should not be used for diagnostic or treatment purposes.
- **Surface Requirement:** Always place the scales on a flat, stable, and non-slip surface (e.g., wood or tile). Using the scales on an uneven or unstable surface will result in inaccurate readings.
- **Safety Precaution:**
 - Ensure your feet are **dry and free from soap or oil** when stepping on the scales.
 - Users with mobility issues should use the scales near a grab bar or similar aid for stability.

Setup Instructions

1. Place the Scales:

Set the scales on a flat and stable surface, such as a wooden or tiled floor. Avoid carpets or uneven surfaces.

2. Zero Adjustment:

Use the adjustment knob on the side of the scales to set the dial to zero before stepping on. Failure to do so will lead to inaccurate readings.

Using the Scales

1. Step onto the scales gently and stand still to allow the device to measure your weight accurately.
2. Ensure the scales are not overloaded beyond the **maximum user weight of 160 kg (25 stone)**.

Cleaning and Maintenance

- **Before and Between Use:** Wipe the surface with a slightly damp cloth and a weak detergent solution.
- **Dry Thoroughly:** Ensure the scales are completely dry after cleaning.
- **Storage:** Do not leave the scales in damp or humid locations when not in use, as this can damage the device.

Safety Warnings

- Always place the scales on a **non-slip surface** to avoid accidents.
- Be cautious when stepping on or off the scales to prevent falls or injuries.

Technical Specifications

- **Maximum Capacity:** 160 kg (25 stone)
- **Product Weight:** 3.5 kg
- **Tolerance:** $\pm 1\%$
