5-Gang Extension Lead with Remote Control & Surge Protection

Thank you for buying your Eagle mains extension lead. This manual forms part of the product and should be kept with it at all times. If the product is sold or moved on then the manual should also be included.

INTENDED USE

For domestic use only as a remote control extension lead

SAFETY WARNINGS

- Before use always inspect the product for wear or damage. If any is detected then do not use and consult your supplier
- Ensure the cable does not cause a trip or snagging hazard
- Do not connect the extension lead on to another extension lead
- Do not remove the mains plug and connect direct to the mains power supply
- Do not exceed the maximum loading (2400W)
- Take care not to damage the cable or fittings
- Disconnect from the mains supply when not in use
- Do not use in damp or wet conditions
- For indoor use only
- Not suitable for high power devices such as Heaters, Irons or other high wattage devices
- There are no user serviceable parts
- **The extension lead must be fully unwound before use**
- **This is not toy. Children under 8 years of age should not use the product. Children over the age of 8 can use the product with adult supervision**
- The extension lead is not suitable for turning the power off to computer devices that are NOT in standby mode. All computers should be shutdown correctly before the power is switched off

OPERATION

The transmitter has 5 groups of buttons with individual ON and OFF function, with each push of the “ON” button, you will turn the power on to the connected electrical device; in the same way with each push of the “OFF” button, the power to the corresponding connected electrical device will be turned off automatically

Note: Maximum transmitter distance is 30m however walls and obstructions will reduce this

MAINTENANCE

- Disconnect from the mains first
- Regular Checks:** Inspect for wear or damage. Discontinue use if damaged
- Cleaning:** Unplug and wipe with a dry cloth. Do not use liquids
- Storage:** Store in a cool, dry place. Avoid tight coils and extreme temperatures

WARRANTY AND SUPPORT

1 year from the date of purchase
